Why I decided to become a donor?

I've always wanted to help people with something very important. When I became a mother myself, I realized what a blessing it is to have children. So when I found out that I could be a donor, I immediately filled out an application for participation

My most vivid memory from childhood

When we went for a walk with my parents and went to the zoo. There I was asked to take a picture with a monkey that I liked. I agreed, but I was very afraid. the photo turned out to be funny - a monkey from my shoulder climbs on my head, and I cry and try to smile

Personal motivation (scanned essay sheets)

Больше всего в людях я ценю искренность и порядочность.
Так же важное качество в людях на мой взгляд
это доброта, умение сопереживать, ответственность и
трудолюбивость. Я ставлю себя в те же люди с такими
разных качеств: злыми, пьющими, не способными любить,
но и много добра и прекрасных людей было.
Благодаря доброте и помощи окружающих я смог
перенести очень трудные моменты жизни, научился
стараюсь помогать. Принимать помощь и такие
предлагать. Я уверен, что люди которые я смогу помочь,
обрести долгожданное чудо воспитают своего малыша
очень хорошим, счастливым и умным человеком.
Счастлив со своими детьми и мамой!
