Why I decided to become a donor?

The academic discipline raised the issue of donation, how much it is a great benefit and what opportunities can be given to future parents. I myself am too young to have children, so I want to give such a miracle to those who are ready and dream about children.

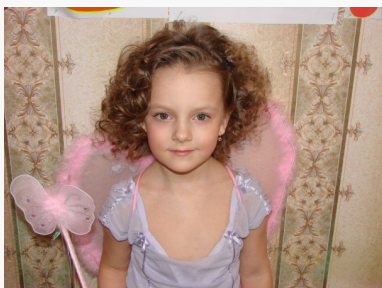

My most vivid memory from childhood

How my mom made milkshakes for my birthday or how I broke my knees when I was roller skating with my dad, the warmth of these thoughts)
