Your achievements.

Write down the main achievements in your life (minimum 50 words)* For example: at school, university, at work, sports achievements, etc.

My achievements are not just items on a list, but the foundation on which my life is built. I dedicated myself to obtaining a higher education in economics, laying a solid foundation for my future, but I didn't stop there. I realized that I could improve my life by mastering programming and received a second additional education. I created my own world - a cozy apartment, which became my personal refuge, filled with warmth and harmony. My faithful companion, a well-mannered and intelligent dog, became a reflection of my patience and care. My most valuable wealth is the circle of good and kind friends who are always there and make my life brighter and more meaningful.

Information on personality traits

Goals in life

My main goal in life is to find a safe haven where I can calmly devote time to my favorite hobbies. I strive for a harmonious family life, filled with comfort and care.

Describe your personality

I am a kind and calm person. Most of all I value order, predictability and clear planning in everything.

Mindset

Technical

Interested in

I am passionate about programming, where I am fascinated by the process of creating something new and solving complex problems. In my free time, I enjoy training my dog ☒for me it is not just a learning process, but a deep interaction and understanding with my four-legged friend. I'm also a big fan of board games and regularly visit the club to immerse myself in the atmosphere of strategy and friendly competition.

Hobbies

As a child, I really loved creativity. I enthusiastically went to art school, where I drew everything I saw around me. At the same time, I attended music school, learning to play the piano. I still love such meditative creative activities - they help me relax and find inner balance.

Dietary preferences

Strengths

I am a very calm and thoughtful person by nature. I like to get to the bottom of things and understand everything thoroughly - it gives me confidence in myself and in what I do. In addition, I have good communication skills. I easily find a common language with most people, which helps me both in work and in everyday life.

Weaknesses

My weaknesses are a continuation of my strengths. My careful analysis and confidence sometimes turn into stubbornness in my opinion: if I think something is right, it's difficult to convince me otherwise. Unfortunately, I don't know how to forgive. If a person betrayed my trust or did something really bad, I stop communicating with him forever. As for physical activity, I am, to put it mildly, not a sports fan. I can force myself to go to the gym to stay in shape, but my activities are limited to calm walking and light exercises - I don't have enough enthusiasm for more.

Favorite color

I adore all shades of blue and purple - these colors and their tints bring me special aesthetic pleasure.

Favorite season

I love late summer and early autumn. For me this is the most beautiful season with ideal, pleasant temperatures.

Favorite holiday

The most favorite and important holidays for me are my parents' birthdays and my own. These are special days when I am sure to be close to my loved ones, receive maximum love and attention from them, and, of course, I myself can give them all my care and tenderness.

Favorite sport

I don't really like sports, but brisk walking and bodyweight exercises are tolerable for me.

Favorite food

My ideal diet is full of nostalgia and family comfort. For breakfast, I love my mother's pancakes topped with light sour cream. The ideal lunch for me is tender chicken baked in a sleeve, combined with aromatic homemade lecho. For dinner, I would prefer my dad's signature dish: stewed beef with potatoes. And the best dessert is the taste of childhood: crispy homemade "Soviet" tubes with boiled condensed milk and, of course, strong black tea without sugar.

Bad habits

Sometimes I succumb to my little weaknesses: I can procrastinate all day, putting everything off until later, or I can completely immerse myself in the atmosphere of St. Petersburg cafes, disappearing there with a friend literally every day.

Favorite animal

In my childhood, the cat Toska lived next to me for 14 years. She was very gentle, kind, but at the same time incredibly clawed. My favorite pet is the dog Timofey, a Chihuahua breed. He is an incredibly kind, affectionate and clingy "licker-sucker" who loves to hug and cuddle. At the same time, Timofey is very smart and knows 14 different teams.

Favorite car brand

I don't know anything about car specifications; the most important thing for me is that the interior is clean and smells nice. Thanks to my dad's upbringing, I treat every car with respect—I never slam doors and handle other people's property with care.

Favorite music genre

Over the last year, I've been literally crazy about lofi hip-hop music. I stream the Lofi Girl YouTube channel all the time - it's always great and provides the perfect backdrop for my work as a programmer.

The most hilarious moment in life

I want to tell you a funny story from childhood that happened to me when I was 10 at a summer camp. On the very first day, a button on my brand new jeans suddenly fell off. I couldn't find her and was very upset because of this - I literally burst into tears. The whole camp seemed to be trying to help me with the search, but the ill-fated button was never found! As a result, I was teased "Button" for the rest of the month. This nickname stuck to me so tightly that all the guys and counselors didn't even remember my real name, but knew me exclusively as Button.

The event or moment I feel most proud of

The proudest and most touching moment in my life was the moment when I finally brought my higher education diploma to my parents. It was the culmination of their support and my work, a moment of pure joy and gratitude.

Favorite film

My favorite films are the Lord of the Rings trilogy. This epic story captivates with its depth, rich world and incredible atmosphere. Every time I immerse myself in the adventures of Frodo and his friends, I feel the magic of friendship, courage and hope. For me, "The Lord of the Rings" is a real work of art that leaves a mark on the soul and inspires good deeds. I've been deeply impressed by big, exciting, thought-provoking films like Inception, Interstellar and the majestic Dune. In addition, since childhood I have had a special love for animated films. I consider the pinnacle of this genre to be masterpieces like Spirited Away, Violet Evergarden and the recent Suzume Closing the Doors.

Favorite TV series

I watched a huge number of TV series, but some of them sank into my soul especially strongly. Among the regular series, the most memorable ones for me were The Office, Better Call Saul and The Big Bang Theory. And among the animated works, I highlight "Attack on Titan", "Death Note" and "Kabaneri of the Iron Fortress".

The event or moment I regret about the most

Most of all in life I regret those words that sometimes slipped out of my mouth and led to unnecessary quarrels. Particularly painful are the memories of the moments when I unwittingly offended the people closest and dearest to me.

Why I decided to become a donor?

Lately I have been haunted by the thought of becoming a donor. I probably miss the feeling of being part of something bigger and truly important. I'm seriously thinking about starting to donate blood. This wish

seems incredibly meaningful. It appeared recently, and I still don't quite understand how to interpret it and what it really means to me, but I'm sure that my actions can benefit the people around me.

My most vivid memory from childhood

The most vivid memory of my childhood will forever remain one New Year's Eve. I was about seven years old, we celebrated the holiday in the company of friends of my parents. And the next morning a real miracle awaited me: a huge number of gifts lay under the tree! Among them was an incredible doll's house. I was absolutely happy at that moment.
