Your achievements.

Write down the main achievements in your life (minimum 50 words)* For example: at school, university, at work, sports achievements, etc.

It is difficult to say what is the greatest achievement in life. I can say that I am a good person with many friends whom I love and who love me. But I can also say that my achievements are a huge volunteer experience, "Star of the Anichkov Palace" and a graduate of the palace, two honors diplomas, successfully passed exams in English and German, and then only more.
