## Information on personality traits

Goals in life

**Building a strong and close-knit family**

---

Describe your personality

**I am determined, strong and courageous, I always achieve what I want. I always achieve what is important to me. I try to maintain healthy relationships with people, to enter into dialog and resolve conflicts through informed conversation. I have a medical secondary professional education (dental hygienist) and at the moment I am studying at the University of SPbGUPTD for interior designer, it has been my dream since early childhood. After graduation (or during) I want to continue my education, but as an architect. As for my family - I see it as my mission and purpose. It is important for me to connect my life with a worthy man, so that our whole male lineage would be like him. That it was a strong tandem of two people, able to bring up their children as worthy, highly moral people, in sincere love, support, care and with the best family values. But I want to devote my life not only to my family and everything that is connected with it. My own self-realization and career are extremely important to me. My goal is to successfully combine these aspects of life.**
