Your achievements.

Write down the main achievements in your life (minimum 50 words)* For example: at school, university, at work, sports achievements, etc.

I achieved high results from an early age, graduating with honors from both music and public schools. While at university, I received a prestigious Russian government scholarship and studied on a state-funded scholarship. Throughout my studies, I conducted research and wrote scientific articles. After graduating, I fulfilled my greatest dream and moved to the city I'd dreamed of since childhood.

buying an apartment for parents and helping them move.

Favorite film

Pride and prejudice

Favorite TV series

The Big Bang Theory

The event or moment I regret about the most

I try to live without regrets. I don't look back and look only forward.

Why I decided to become a donor?

I decided to become an egg donor because I want to help those who are having difficulty conceiving. I believe it's a truly important and noble cause—giving the chance to become parents to those who, for various reasons, are unable to have children on their own. I believe my help can change someone's life for the better and bring joy and hope to those who are longing for it. For me, this is not only an opportunity to do a good deed, but also a way to show my care and support for others.

My most vivid memory from childhood

12 hours at the water park with parents.
